***TOWN OF PARADISE PUBLIC WORKS DEPARTMENT TO BEGIN
SKYWAY DRAINAGE REPAIRS***

The Town of Paradise Street Maintenance Division will be performing drainage repairs to areas along Skyway, between Clark Road and Wagstaff Road prior to next months asphalt overlay project.

The work will involve the re-grading of shoulders and driveways.

Weather permitting, work will begin on May 18, 2010 and continue until Mid June as necessary to complete these repairs. Our goal is to complete these repairs prior to the ARRA asphalt overlay project scheduled for construction in June and July.

Motorists are advised that traffic may face up to a 15 minute delay in traveling on Skyway between Clark Road and Wagstaff Road and should consider an alternate route to their destination. The work zone area will have flaggers providing traffic control through construction site and traffic may be monitored by law enforcement for work zone area violations.

As always, please drive carefully and use caution when you see our crews out in the roadway. They are working hard to provide the citizens of Paradise with safe, well maintained roadways to help you get to your destination safely.
