NEW EMERGENCY NOTIFICATION SYSTEM

The Town of Paradise has partnered with Butte County to provide an emergency mass notification system for the citizens of the County of Butte. This new system has replaced the Town's prior emergency notification system. Citizens must log onto the website and provide their contact information as prior registrations cannot be transferred. The self-registration portal is located at <https://buttecounty.onthealert.com/>

The new Emergency Mass Notification System will allow citizens of Butte County to sign up to receive emergency notifications.

The web portal allows citizens to add email addresses, cellular numbers, and land line phone numbers, as well as, to attach those numbers and email addresses to their home on a map. Sign up today and stay informed during an emergency.
