Downtown Paradise Safety Project Construction Underway

July 31, 2014

For further information, contact Marc Mattox at
(530) 872-6291 x125, Monday-Thursday, 8am to 5pm

George Reed, Inc is making early progress for construction of the Downtown Paradise Safety Project. On July 30, drivers on Skyway noticed significant lane layout changes which were implemented for construction and will resemble the final "downtown" configuration. During construction, drivers will experience delays through Town. Once the project is complete, traffic flow will improve. The Town appreciates your patience during the construction phase of the project.

More information on the project can be found on the Town's website at www.townofparadise.com.
