### **WILLOW STREET STORM DRAIN REPLACEMENT PROJECT**

On **Monday, June 24, 2013** McGregor Construction of Paradise will begin work on the Willow Street Storm Drain Replacement Project. This involves the removal of a deteriorated metal drain line and the installation of a new, larger diameter high density polyethylene pipe. The scheduled working hours for this project will be 7:00 am until 5:00 pm.

It is anticipated that the construction operations will require some limited access to the properties and that residents should be prepared for delays coming and going from their residences. The project should be completed within 2 days.

Willow Street and Black Olive Drive will be closed to through traffic between Almond Street and Fir Street. Signage will be placed at both the Fir Street intersection with Black Olive and Willow Street and Almond Street.

Additionally, motorists should drive carefully and be on the lookout for traffic control signs, flaggers and equipment. We also request that motorists obey all instructions from the traffic control personnel that they encounter, and that they try to be patient with us during the completion of this project.
