***Town of Paradise and Paradise Irrigation District Find Common Ground on Bille Road***

June 20, 2013

For further information, contact Town Hall at  
(530) 872-6291, Monday-Thursday, 8am to 5pm

Bille Road, a Town-maintained collector, historically has been difficult to maintain due to constant drainage issues and various failures since the roadway was originally constructed.

Recognizing the current roadway conditions have worsened, both PID and the Town have been exploring alternatives to provide the most effective roadway solution with limited funding.

Both the Paradise Town Council and Paradise Irrigation District Board of Directors approved a joint agreement to provide funds for an overlay contract for Bille Road. The proposed overlay will extend from approximately 200' east of Fern Lane to 200' west of Posey Lane. An overlay will extend the useful life of this segment of Bille Road, but a full reconstruction will be required at some point in the future.
