Use Caution in Construction Zones

August 18, 2014

For further information, contact Marc Mattox at
(530) 872-6291 x125, Monday-Thursday, 8am to 5pm

Construction for the Downtown Paradise Safety Project is progressing. Residents and commuters are reminded to please drive slowly and pay attention to the roadway in the construction zones. A list of construction zone safety tips is provided below:

- Stay alert and minimize distractions. Don't adjust controls while you're in a work zone.
- Never text and drive.
- Expect the unexpected – lane patterns may change throughout the day and workers may be nearby.
- Slow down.
- Keep a safe distance between your vehicle, highway workers, their equipment and barriers.
- Keep up with traffic.
- Pay attention to signs.
- Obey flaggers where present.
- Allow time for delays.
- Be patient, and stay calm.

The Town sincerely appreciates your patience during construction and we look forward to a completed project in September. More information on the project can be found on the Town's website at www.townofparadise.com.
