TOWN OF PARADISE PUBLIC WORKS DEPARTMENT TO BEGIN STREET SWEEPING OPERATIONS

Street sweeping operations will begin on Tuesday, April 23, 2013 and continue through the next seven (7) days. Our goal is to complete approximately 36 of the 100 miles of Town maintained roads. This annual sweeping helps remove the sands placed from winter deicing and snow removal operations as well as the residual leaves and pine needles from the winter fall.

Sweeping operation will start daily at 3:00 AM. This will allow the major roads and intersections to be cleaned while there is less vehicular traffic. The lesser traffic and residential roadways will be swept during the later hours of the morning, allowing for less noise and inconvenience for residents. Unfortunately, the noise from the operation may travel into residential areas as the cleaning continues. We apologize for this, but this should be kept to a minimum during this week of work.

As always, please drive carefully and use caution when you see our crews out in the roadway. They are working hard to provide the citizens of Paradise with safe, well maintained and clean roadways to help you get to your destination safely.
