INDEPENDENT AUDITOR'S REPORT

To the Town Council
Town of Paradise
Paradise, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Paradise, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Town of Paradise's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Paradise, as of June 30, 2021, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

Change in Accounting Principle

As described in Note 1 to the financial statements, in 2021, the City adopted new accounting guidance, GASB Statement No. 84, *Fiduciary Activities*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison information, pension related schedules, and other post-employment benefit schedules as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Paradise's basic financial statements. The combining and individual governmental nonmajor fund financial statements and budgetary comparison schedules, and the combining fiduciary fund schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual governmental nonmajor fund financial statements, budgetary comparison schedules, and the combining fiduciary fund schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, budgetary comparison schedules, and the combining fiduciary fund schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated July 26, 2022, on our consideration of the Town of Paradise's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Paradise's internal control over financial reporting and compliance.

TOWN OF PARADISE
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2021

As management of the Town of Paradise (the Town), we offer readers of the Town's basic financial statements this narrative overview and analysis of the financial activities of the Town as of and for the fiscal year ended June 30, 2021. We encourage readers to consider the information presented here in conjunction with the accompanying Independent Auditor's Report, the basic financial statements, and the accompanying notes to the financial statements.

USING THIS ANNUAL REPORT

This report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities of the Town as a whole and present a longer term view of the Town's finances. For governmental activities, the statements tell how these services were financed in the short-term as well as what remains for future spending. Fund financial statements report the Town's operations in more detail than the government-wide statements by providing information about the Town's most significant funds. The remaining statements provide financial information about activities for which the Town acts as a trustee or custodian for the benefit of those outside the government.

REPORTING THE TOWN AS A WHOLE

In the current year, Town's net position increased to \$230 million as compared to the prior year at \$225.5 million. The Town's unrestricted and restricted cash and investments increased substantially to \$231.6 million, primarily as a result of the Town receiving settlement proceeds from Pacific Gas & Electric Company relating to the 2018 Camp Fire, which were recorded as a receivable in the prior fiscal year. Prior to extraordinary items, accounts and interest receivables, prepaid items, and the advance to the Successor Agency increased to \$10.0 million from \$4.1 million in the prior year, which resulted primarily from increased grant activity outstanding during the current fiscal year. The Town's rebuilding efforts and capital projects resulted in increased total capital assets to \$29.7 million compared to \$22.9 million in the prior year.

The Town reports \$21.7 million of pension liability and pension related net deferred use of resources to its activities as compared to \$20.7 million the prior year. The Town contracts with CalPERS for Pension benefits for its employees. The Town is making the required contributions toward the long-term pension obligation just described. This obligation is being amortized over about a 25-year period.

Accounts payable increased to \$3.8 million from \$1.9 million in the prior fiscal year as a greater volume of payments were issued towards the end of the current fiscal year. Unearned revenues decreased to \$5.6 million from \$10.5 million in the prior fiscal year. Unearned revenue sources include insurance claim advances, advance on grant funds awarded, and housing program insurance funds held for 2018 Camp Fire survivors. The Town's long-term liabilities due in more than one year increased slightly to \$43.7 million from \$42.4 million in the prior year due primarily to an increase in net pension obligation.

Table 2 on the next page shows another perspective of the net position of the Town. The Town's total general revenues which includes property taxes, sales taxes, and motor vehicle in-lieu totaling \$13.1 million, remained relatively stable as compared to the prior year. Total program revenues totaled \$14.6 million, which decreased slightly from \$15.2 million in the prior year. Decreases in charges for services and operating grants and contributions were offset by increases in capital grants and contributions as the Town focuses efforts on long-term infrastructure rebuilding activities. The Town recognized a net gain of \$1.7 million in extraordinary items, which is the result of ongoing FEMA public assistance claims.

Expenses decreased 4% to \$24.7 million compared to the prior year. General government and parks and recreation expenses remained relatively stable with the prior year. Decreases in community development and public works expenses were offset by increases in public safety and streets related expenses as the Town continues to support significant rebuilding and infrastructure projects throughout the Town and increase operational support to meet the needs of the community following the 2018 Camp Fire.

TOWN OF PARADISE
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2021

THE TOWN'S FUNDS

As the Town completed the year, its governmental funds, (as presented in the balance sheet and the statement of revenues, expenditures and changes in fund balances), reported a combined fund balance of \$232 million. Over 93% of this fund balance is unassigned and is the result of the settlement proceeds paid to the Town from Pacific Gas & Electric Company for damages stemming from 2018's Camp Fire.

General Fund Highlights

The Camp Fire had immediate and long-lasting impacts to the finances of the general fund. As the effects were unprecedented, the Town Council approved budget revisions for material changes as they were identified. A mid-year budget review was completed which reflected revised revenues, personnel costs and other operating expenditures when needed.

Exclusive of the extraordinary items, the Town's general fund revenues remained relatively consistent with the prior fiscal year, with a total 6.0% increase of \$0.8 million compared to the prior year. Taxes and assessments provide most of the general fund's revenues. Lost property taxes and motor vehicle in-lieu were back filled by the State of California, but other taxes and revenue sources were not. The Town also received lost tax revenues through insurance revenue interruption claims. The Town recognized \$1.5 million of the insurance proceeds during the current fiscal year and still maintains \$1.1 million for future years.

Expenses increased approximately 6.1% compared to the prior year. The primary categories of increase in expenses were related to general government, community development, public safety and public works as the Town continues to support significant rebuilding and infrastructure projects throughout Town and increase operational support to meet the needs of the community following the 2018 Camp Fire.

The ending general fund balance for June 30, 2021 is \$223.7 million. Most importantly unassigned reserves are \$221.7 million. The unassigned reserves reduce the amount of cash needed to be borrowed annually to fund operations. This is a significant improvement compared to five years ago when there were no unassigned reserves available.

Other Major Governmental Funds

The Building Safety and Waste Water Services fund is a Special Revenue funding source, charging for services for permitting, plan checks, and inspection services. This fund's revenues decreased approximately 19% compared to the initial post-2018 Camp Fire influx of building activity in the prior fiscal year, however, revenues remain overwhelmingly greater than pre-2018 Camp Fire historical averages as the activities within the fund continues to support significant rebuild efforts in the Town. These services physically moved to a separate building in the Town, referred to as the Building Resiliency Center (BRC) and provide residents and building contractors a one-stop shop in their rebuilding efforts. Building new homes before the 2018 Camp Fire averaged 25 homes per year. Post-2018 Camp Fire new homes rebuilt with a certificate of occupancy have continued to average approximately 10 per week.

The Home Grant fund is a Federal Grant funding source to allow the Town to provide income eligible community members grants and loans for housing purposes. The Town provides low interest and interest-forgivable loans to first time home buyers. The Town can also provide loans and grants for housing rehabilitation projects. The Town has provided funding for multi-family housing projects through this fund as well.

The Camp Fire 2018 Fund and Disaster Recovery Project Fund accounts for monies collected for the Camp Fire relief program. Revenues primarily consist of grant funding for recovery efforts and insurance claim reimbursements. Expenses consist of charges for continued support for rebuilding efforts of Town infrastructure and the overall community throughout the fiscal year.

CAPITAL ASSETS

This year's major capital asset additions included \$200,000 in land purchased, additions of \$6.8 million to construction in process, approximately \$92,000 of additions in buildings and improvements, as well as other machinery, equipment, and vehicles additions of approximately \$232,000.

Table 3 below shows the \$29.7 million total capital assets, net of depreciation.

DEBT

Bonds payable and capital leases continued to be reduced compared to the prior year as payments were made according to the applicable amortization schedules. One additional capital lease was entered into during FY 2020/21. The Town's OPEB obligation remained relatively consistent to the prior year. By capping benefits for all employee groups and by starting an irrevocable trust to begin funding the future obligation, the Town is containing its OPEB obligation, and it remains at \$10 million. The Town contributed towards the net pension liability as dictated by CalPERS, and the net pension liability increased 7.9%. The Town has taken measures to mitigate the benefits in the future and the obligation is being amortized over a period of about 25 years.

Please refer to Notes 7, 8, and 9 for more detailed information about the obligations outstanding.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2021

THE TOWN AS TRUSTEE

The Town is the trustee, or fiduciary, for an employee bank fund and a police department fund money fund. As of January 2012, it elected to become the successor agency of the former Paradise Redevelopment Agency (Agency). The Town's current role is to manage the receipt and disbursement of monies related to debt service of enforceable obligations of the Agency. The Town also manages a general trust fund. All the related activity is being accounted for in the private-purpose trust funds. The Town is responsible for the assets in these funds and must only use these funds as indicated in the trust arrangements. The Town's fiduciary activities related to the Agency and the general trust fund are reported in the Statement of Fiduciary Net Position and the Statement of Changes in Fiduciary Net Position. The activities are excluded from the Town's other financial statements because the Town cannot use these assets to finance its operations. The Town is responsible for ensuring that the assets reported in these funds are used for their intended purposes. The private-purpose trust funds have a net position of negative \$6.16 million as of June 30, 2021.

NEXT YEAR'S BUDGET AND ASSUMPTIONS

The Camp Fire of November 8, 2018 was the most destructive wildfire in California State history. Rebuilding of the 10,000 structures destroyed has begun, but it will take over a decade before the Town of Paradise is restored. A community visioning process was completed with a consensus that a more resilient fire-resistant town be rebuilt. With the help of Federal, State, and local partners, the Town has started long-term recovery planning and projects.

The Town has reached a settlement with Pacific Gas and Electric Company (PG&E), relating to the 2018 Camp Fire for the sum of \$270 million. After attorney and other fees were processed, the Town received \$219 million. The Town continues towards the establishment of a formal process for planning the use of the funds. The majority is expected to be used to maintain appropriate service levels until the Town's tax base is restored. Funds may also be used to leverage grant monies for recovery projects to support the rebuild of the Town.

The Town is planning to restore the facilities and equipment lost or damaged during the fire through a combination of insurance claims, FEMA assistance, and outside funding sources. The Town has received \$9.5 million from insurance claims resulting from infrastructure losses and the loss of income. FEMA and the California Governor's Office of Emergency Services will assist the Town with infrastructure restoration through public assistance and hazard mitigation grants. The Town has received \$8.4 million of public assistance grant funds, which includes an advance towards future recovery expenses of \$5 million.

CONTACTING THE TOWN'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the Town's finances and to show the Town's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Town's Finance Department at 5555 Skyway, Paradise, California.

TOWN OF PARADISE
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2021

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. The Reporting Entity

The Town of Paradise (the Town) was incorporated in 1979 and nestled in the foothills of California's Sierra Nevada Mountains. The Paradise Town Council is the chief policy making body for the Town and is comprised of five members elected at large by the community to four-year staggered terms.

The accompanying basic financial statements present the financial activity of the Town of Paradise (Town), which is the primary government.

B. Basis of Presentation

The Town's basic financial statements are prepared in conformity with accounting principles generally accepted in the United States of America. The Government Accounting Standards Board is the acknowledged standard setting body for establishing accounting and financial reporting standards followed by governmental entities in the United States of America.

These standards require that the financial statements described below be presented.

Government-wide Financial Statements

The Statement of Net Position and Statement of Activities display information about the reporting government as a whole. They include the activities of the overall Town government except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. The Town's net position is reported in three parts - net investment in capital assets, restricted net position, and unrestricted net position. The Town first utilizes restricted resources to finance qualifying activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues.

The Statement of Activities presents a comparison between direct expenses and program revenues for each function of the Town's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) charges paid by the recipients for goods or services offered by the programs, (b) grants and contributions that are restricted to meeting the operational needs of a particular program and (c) fees, grants and contributions that are restricted to financing the acquisition or construction of capital assets. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements

The fund financial statements provide information about the Town's funds, including fiduciary funds. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund equity, revenues and expenditure/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. The Town does not have any proprietary funds. An emphasis is placed on major funds within the governmental category with each major fund displayed in a separate column. A fund is considered major if it is the primary operating fund of the Town or meets the following criteria:

- a. Total assets and deferred outflows of resources, liabilities and deferred inflows of resources, revenues or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type; and
- b. Total assets and deferred outflows of resources, liabilities and deferred inflows of resources, revenues, or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

All remaining governmental funds are aggregated and reported as nonmajor funds in a single column, regardless of their fund type.

TOWN OF PARADISE
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2021

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The Funds of the financial reporting entity are described below.

Governmental Funds

General Fund - The General Fund is the general operating fund of the Town and is always classified as a major fund. It is used to account for all activities except those legally or administratively required to be accounted for in other funds.

Special Revenue Funds - Special Revenue Funds are used to account for the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects.

Debt Service Funds - Debt Service Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditures for principal and interest.

Capital Project Funds - Capital Project Funds are used to account for financial resources that are restricted, committed, or assigned to expenditures for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

The Town reported the following major governmental funds in the accompanying financial statements:

General Fund - This is the Town's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Home Grant Fund - This fund accounts for Home Grant monies collected and spent by the Town.

Camp Fire 2018 Fund - This fund accounts for monies collected for the Camp Fire relief program and to assist community organizations serving evacuees and first responders.

Building Safety and Wastewater Services Fund - This fund is used to account for the revenues and expenditures from the Town's rebuilding and septic system planning and safety activities.

Disaster Recovery Projects - This fund accounts for rebuilding projects made necessary due to the 2018 Camp Fire.

Fiduciary Funds (not included in government-wide statements)

The Town reports the following additional fund types:

Private-Purpose Trust Funds - Private-Purpose Trust Funds are used to report all other trust arrangements under which principal and income benefit individuals, private organizations, or other governments.

Custodial Funds - Custodial Funds are used to report fiduciary activities that are not required to be reported in pension (and other employee benefit) trust funds, investment trust funds, or private-purpose trust funds.

C. Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements regardless of the measurement focus applied.

Measurement Focus

On the government-wide Statement of Net Position and the Statement of Activities, governmental activities are presented using the economic resources measurement focus as the accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources (whether current or noncurrent) associated with the operation of these funds are reported.

TOWN OF PARADISE
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2021

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate:

- a. All governmental funds are accounted for using a "current financial resources" measurement focus. With this measurement focus, only current assets and current liabilities generally are included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.
- b. Fiduciary funds use the "economic" resources" measurement focus and the accrual basis of accounting.

Basis of Accounting

In the government-wide Statement of Net Position and Statement of Activities, governmental activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset is used. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when "measurable and available". Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or soon enough thereafter to pay current liabilities. The Town defines available to be within 60 days of year-end. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported when due. Governmental capital asset acquisitions are reported as expenditures in governmental funds. Proceeds for governmental long-term liabilities and acquisitions under capital leases are reported as other financing sources.

Those revenues susceptible to accrual include taxes, intergovernmental revenues, interest and charges for services. Certain indirect costs are included in program expenses reported for individual functions and activities.

Grant revenues are recognized in the fiscal year in which all eligibility requirements are met. Under the terms of grant agreements, the Town may fund certain programs with a combination of cost-reimbursement grants, categorical block grants, and general revenues. Thus, both restricted and unrestricted net position are available to finance program expenditures. The Town's policy is to first apply restricted grant resources to such programs, followed by general revenues if necessary.

D. Property Taxes

California Constitution Article XIII A, limits the combined property tax rate to one percent of a property's assessed valuation. Additional taxes may be imposed with voter approval. Assessed value is calculated at one hundred percent of a property's fair value, as defined by Article XIII A, and may be increased no more than two percent per year unless a change in ownership occurs. The state legislature has determined the method of distributing the one percent tax levy among the various taxing jurisdictions.

Property tax revenues are recognized in the fiscal year for which taxes have been levied, and collected within sixty days of fiscal year end. Property taxes are billed and collected as follows:

<u>Valuation/Lien Date(s)</u>	<u>Secured</u>	<u>Unsecured</u>
Levy Date(s)	January 1 July 1	January 1 July 1
Due Date(s)	November 1 (50%) February 1 (50%)	August 1
Delinquency Date(s)	December 10 (Nov.) April 10 (Feb.)	August 31

TOWN OF PARADISE
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2021

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The Town adopted an alternative method of property tax distribution (the "Teeter Plan"). Under this method, the Town receives 100% of its secured property tax levied in exchange for foregoing any interest and penalties collected on delinquent taxes. The Town receives payments as a series of advances made by the County throughout the fiscal year. The secured property tax levy is recognized as revenue upon receipt including the final payment, which generally is received within 60 days after the fiscal year end.

E. Cash and Investments

The Town pools the cash of all funds, except for monies deposited with fiscal agents in accordance with related bond indentures. The cash and investments balance in each fund represents that fund's equity share of the Town's cash and investment pool. As the Town places no restrictions on the deposit or withdrawal of a particular fund's equity in the pool, the pool operates like a demand deposit account for the participating funds.

Interest income earned on pooled cash and investments is allocated monthly to the various funds based on month-end balances and is adjusted at fiscal year-end. Interest income on restricted cash and investments with fiscal agents is credited directly to the related fund.

The Town's investments are carried at fair value. The fair value of equity and debt securities is determined based on sales prices or bid-and-asked quotations from SEC-registered securities exchanges or NASDAQ dealers. Local Agency Investment Fund ("LAIF") determines the fair value of their portfolio quarterly and reports a factor to the Town; the Town applies that factor to convert its share of LAIF from amortized cost to fair value. This amount is included in cash and cash equivalents in the balance sheet of the governmental funds. Changes in fair value are allocated to each participating fund.

F. Accounts and Interest Receivable

In the government-wide statements, receivables consist of all revenues earned at year-end and not yet received. Receivables are recorded in the financial statements net of any allowance for doubtful accounts if applicable, and estimated refunds due. Major receivables balances for the governmental activities include sales and use taxes, franchise taxes, grants, police fines and other fees. Federal and state grants are considered receivable and accrue as revenue when reimbursable costs are incurred.

In the fund financial statements, material receivables in governmental funds include revenue accruals such as sales tax, franchise tax, and grants and other similar intergovernmental revenues since they are usually both measurable and available. Non-exchange transactions that are collectible but not available are recorded as deferred inflows of resources in the fund financial statements in accordance with the modified accrual basis of accounting, but not deferred in the government-wide financial statements in accordance with the accrual basis of accounting. Interest and investment earnings are recorded when earned only if paid within 60 days since they would be considered both measurable and available. Long-term loans in governmental funds are treated as expenditures in the year advanced and as revenues in the year repayment is measurable and available. Loans receivable are recorded in the fund statements, but are offset by deferred inflows of resources to indicate they do not represent current financial resources.

G. Prepaid Expenses

Prepaid items are also recognized under the consumption method. Payments to vendors that reflect costs applicable to future accounting periods are recorded as prepaid items in both government-wide and fund financial statements.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

H. Capital Assets

Government-wide Statements

All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Contributed capital assets are valued at their estimated fair market value on the date contributed. The cost of normal maintenance and repairs that do not add to the value of the capital asset or materially extend capital asset lives are not capitalized.

Depreciation is provided using the straight-line method which means the cost of the asset is divided by its expected useful life in years and the result is charged to expense each year until the asset is fully depreciated. The purpose of depreciation is to spread the cost of capital assets equitably among all users over the life of these assets. The amount charged to depreciation expense each year represents that year's pro rata share of the cost of capital assets. The Town has assigned the useful lives listed below to capital assets:

<u>Assets</u>	<u>Years</u>
Buildings and Improvements	5 to 25
Infrastructure	20
Vehicles	5 to 10
Machinery and Equipment	5 to 10

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during construction phase of debt financed capital assets is included as part of the capitalized value of the asset constructed.

Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

I. Long-Term Liabilities

In the government-wide financial statements, long-term liabilities and other long-term obligations are reported as liabilities in the governmental activities statement of net position. Initial issue bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. The difference between the reacquisition price of refunding bonds and the net carrying amount of refunded debt (deferred amount on refunding) is amortized over the shorter of the lives of the refunding debt or remaining life of the refunded debt. Bond issuance costs, except for insurance, are expensed in the period incurred. Amortization of bond premiums or discounts, insurance costs, and deferred amounts on refunding is included in interest expense.

In the fund financial statements, governmental fund types recognize bond premiums, discounts, and issuance costs during the period issued. The face amount of debt issued is reported as other financing sources. Premiums received are reported as other financing sources, while discounts are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

J. Compensated Absences

Compensated absences comprise unused vacation leave and compensatory time off, which are accrued as earned. The Town's liability for compensated absences is recorded in the government-wide Statement of Net Position for governmental funds. A liability is calculated for all the costs of compensated absences based upon benefits earned by employees in the current period for which there is a probability of payment at termination. The salary and related payroll costs are those in effect at June 30, 2021. The amount of accrued sick pay is not due upon termination and therefore is not recorded as a liability for the Town. One group of employee is entitled to sick leave payout. If the employee was hired before November 19, 2012, has five years of service, and leaves in good standing, they can receive a payout for sick leave in excess of twenty days at half their normal rate of pay up to \$3,750.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

K. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position, or balance sheet, will sometimes report a section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position or fund balance that applies to a future period(s) and so will be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of net position, or balance sheet, will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position or fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

L. Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Town's California Public Employees' Retirement System (CalPERS) plan (the Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

M. Other Postemployment Benefits (OPEB)

For the purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Town's plan (OPEB Plan) and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis. For this purpose, benefit payments are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value.

Generally accepted accounting principles require that the reported results must pertain to liabilities and asset information with certain defined timeframes. For this report, the following timeframes are used:

Valuation Date	June 30, 2019
Measurement Date	June 30, 2020
Measurement Period	July 1, 2019 to June 30, 2020

N. Interfund Transactions

Interfund transactions are reflected as either loans, services provided, reimbursements, or transfers. Loans are reported as receivables and payables as appropriate, are subject to elimination upon consolidation and are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). Advances between funds, as reported in the fund financial statements, are offset by a nonspendable fund balance account in applicable governmental funds to indicate that they are not available for appropriation and are not available financial resources.

Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund, and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers.

O. Equity Classifications

Government-wide Statements

Net position is the excess of all the Town's assets and deferred outflows of resources over all its liabilities and deferred inflows of resources, regardless of fund. Net position is divided into three categories. These categories apply only to net position, which is determined at the government-wide level, and are described below:

- a. *Net Investment in Capital Assets* - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. *Restricted Net position* - Consists of net position with constraints place on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. *Unrestricted Net Position* - All other net position that do not meet the definition of "restricted" or "net investment in capital assets."

Fund Statements

The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the Town is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

- a. *Nonspendable* - Amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.
- b. *Restricted* - Amounts that are restricted for specific purposes when constraints placed on the use of resources are either (a) externally imposed by creditors, grantors, contributors, laws, or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.
- c. *Committed* - Amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision making authority.
- d. *Assigned* - Amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted or committed.
- e. *Unassigned* - Amounts representing the residual classification for the general fund and residual negative fund balance of special revenue and capital project funds.

Further detail about the Town's fund balance classification is described in Note 10.

P. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from these estimates.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Q. Implementation of Government Accounting Standards Board Statements

Effective July 1, 2020, the Town implemented the following accounting and financial reporting standards:

Government Accounting Standards Board Statement No. 84

In January 2017, GASB issued Statement No. 84, *Fiduciary Activities*. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. The Town adopted this accounting guidance for its June 30, 2021 year-end.

Government Accounting Standards Board Statement No. 90

In August 2018, GASB issued Statement No. 90, *Majority Equity Interests - an amendment of GASB Statements No. 14 and 61*. The primary objectives of this Statement are to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. It defines a majority equity interest and specifies that a majority equity interest in a legally separate organization should be reported as an investment if a government's holding of the equity interest meets the definition of an investment. This Statement establishes that ownership of a majority equity interest in a legally separate organization results in the government being financially accountable for the legally separate organization and, therefore, the government should report that organization as a component unit. The Town adopted this accounting guidance for its fiscal year ending June 30, 2021.

R. Future Government Accounting Standards Board Statements

These statements are not effective until July 1, 2021 or later. The Town has not determined the effects on the financial statements.

Government Accounting Standards Board Statement No. 87

In June 2017, GASB issued Statement No. 87, *Leases*. The objective of this statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This statement requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this statement, a lessee is required to recognize a lease liability and an intangible right to use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The Town has not determined what impact, if any, this pronouncement will have on the financial statements. Application of this statement is effective for the Town's fiscal year ending June 30, 2022.

Government Accounting Standards Board Statement No. 89

In June 2018, GASB issued Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*. This Statement establishes accounting requirements for interest cost incurred before the end of a construction period. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business type activity or enterprise fund. The Town has not determined what impact, if any, this pronouncement will have on the financial statements. Application of this statement is effective for the Town's fiscal year ending June 30, 2022.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Government Accounting Standards Board Statement No. 91

In May 2019, GASB issued Statement No. 91, *Conduit Debt Obligations*. The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures. The Town has not determined what impact, if any, this pronouncement will have on the financial statements. Application of this statement is effective for the Town's fiscal year ending June 30, 2023.

Government Accounting Standards Board Statement No. 92

In January 2020, GASB issued Statement No. 92, *Omnibus 2020*. The primary objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. The Town has not determined what impact, if any, this pronouncement will have on the financial statements. Application of this statement is effective for the Town's fiscal year ending June 30, 2022.

Government Accounting Standards Board Statement No. 93

In March 2020, GASB issued Statement No. 93, *Replacement of Interbank Offered Rates*. The primary objective of this Statement is to address accounting and financial reporting implications that result from the replacement of an interbank offered rate (IBOR). The Town has not determined what impact, if any, this pronouncement will have on the financial statements. The removal of LIBOR as an appropriate benchmark interest rate is effective for the Town's fiscal year ending June 30, 2022. All other requirements of this statement are effective for the Town's fiscal year ending June 30, 2022.

Government Accounting Standards Board Statement No. 94

In March 2020, GASB issued Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*. The primary objective of this Statement is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). A PPP is an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial assets, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. This Statement also provides guidance for accounting and financial reporting for availability payment arrangements (APAs). An APA is an arrangement in which a government compensates an operator for services that may include designing, constructing, financing, maintaining, or operating an underlying nonfinancial asset for a period of time in an exchange or exchange-like transaction. The Town has not determined what impact, if any, this pronouncement will have on the financial statements. The requirements of this statement are effective for the Town's fiscal year ending June 30, 2023.

Government Accounting Standards Board Statement No. 96

In May 2020, GASB issued Statement No. 96, *Subscription-Based Information Technology Arrangements*. This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for governments, defines a SBITA, establishes that a SBITA results in a right-to-use subscription asset-an intangible asset-and a corresponding liability, provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA, and requires note disclosures regarding a SBITA. The Town has not determined what impact, if any, this pronouncement will have on the financial statements. The requirements of this statement are effective for the Town's fiscal year ending June 30, 2023.

Government Accounting Standards Board Statement No. 97

In June 2020, GASB issued Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans an Amendment of GASB Statements No. 14 and No. 84, and a Supersession of GASB Statement No. 32*. The primary objectives of this Statement are to (1) increase consistency and comparability related to the reporting of fiduciary component units in circumstances in which a partial component unit does not have a governing board and the primary government performs the duties that a governing board typically would perform; (2) mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution other postemployment benefit (OPEB) plans, and employee benefit plans other than pension plans or OPEB plans (other employee benefit plans) as fiduciary component units in fiduciary fund financial statements; and (3) enhance the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans (Section 457 plans) that meet the definition of a pension plan and for benefits provided through those plans. The Town has not determined what impact, if any, this pronouncement will have on the financial statements. The requirements of this statement related to the accounting and financial reporting for Section 457 plans are effective for the Town's fiscal year ending June 30, 2022.

NOTE 2: STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budgetary Information

The following procedures are performed by the Town in establishing the budgetary data reflected in the financial statements:

- 1) The Finance Director submits a preliminary budget by mid-June of each year to Town Council. The final budget is officially adopted before June 30. The operating budget includes proposed expenditures and the means of financing them.
- 2) Public hearings are conducted to obtain taxpayers' comments.
- 3) The appropriated budget is prepared by fund, department, and division. The government department heads may make transfers of appropriation within a department. Transfers of appropriations between departments requires approval of the Town Manager. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the fund level.
- 4) The budget is legally adopted through the passage of a council resolution.
- 5) The Town Council may amend the budget by resolution during the fiscal year. The Town Manager may transfer appropriations from one program, activity, or object to another within the same fund. All appropriations lapse at the end of the fiscal year to the extent they have not been expended. Capital project funds are based on a project time frame, rather than a fiscal year "operating" time frame reappropriating unused appropriations from year to year until project completion.
- 6) A budget review is presented to the Town Council by the Town Manager mid-year and approved additions or changes are legally adopted through Council resolution.
- 7) Formal budgetary integration is employed as a management control device during the year for the General Fund, Special Revenue Funds, and the Capital Project Funds.
- 8) Budgets for the General, Special Revenue, and Capital Project Funds are adopted on a basis consistent with United States generally accepted accounting principles.

NOTE 2: STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (CONTINUED)

There were no budgets prepared for the following funds:

- Special Projects Fund
- Hydrant Maintenance Fund
- Police Department Seizures Fund
- Improvement Agreements Fund
- FHWA - Federal Aid Highway Act Fund

B. Excess of Expenditures and Transfers Out over Appropriations

The funds below incurred expenditures and transfers in excess of budgets in the amounts below. Sufficient resources were available in the fund balance of the funds.

Fund	Final Appropriation	Expenditures and Transfers Out	Excess
Non-major Funds:			
Cal Home Rehabilitation Fund	\$ 12,550	\$ 79,395	\$ 66,845
Gas Tax Fund	1,267,581	1,474,900	207,319
North Valley/Butte Strong Fund	165,000	343,912	178,912
Abandoned Vehicle Fund	15,714	24,954	9,240
General Plan Fee Fund	-	36,627	36,627
COVID-19 Fund	19,510	114,081	94,571
USDA Fund	-	242,882	242,882
Canine Protect Fund	17,921	24,178	6,257
FEMA Reimbursement Fund	262,500	377,494	114,994

C. Fund Deficits

At June 30, 2021, the following governmental funds had a fund balance deficit:

Fund	Deficit
Camp Fire 2018 Fund	\$ (2,364,593)
Animal Control Shelter	(201)
Traffic Safety	(1,170)
Business and Housing Services	(361,085)
CDBG Disaster Recovery	(851,288)
BHS 2020 Cal HOME DA Grant	(623,987)
Police Department Seizures Fund	(1,302)

The fund balance deficits are primarily due to the Town incurring costs in advance of receipt of revenues and will be eliminated through future revenues and expenditure reductions.

Investment Valuation

The Town measures and records its investments using fair value measurement guidelines established by generally accepted accounting principles. These guidelines recognize a three-tiered fair value hierarchy, as follows:

- Level 1: Quoted prices for identical investments in active markets;
- Level 2: Observable inputs other than quoted market prices; and,
- Level 3: Unobservable inputs.

Investments are measured at fair value on a recurring basis. Recurring fair value measurements are those that Governmental Accounting Standards Board (GASB) Statements require or permit in the statement of net position at the end of each reporting period.

Investment in State Investment Pool

The Town is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by the California Government Code under the oversight of the Treasurer of the State of California. This fund is not registered with the Securities and Exchange Commission as an investment company, but is required to invest according to the California State Code. Participants in the pool include voluntary and involuntary participants, such as special districts and school districts for which there are legal provisions regarding their investments. The Local Investment Advisory Board (Board) has oversight responsibility for LAIF. The Board consists of five members as designated by State Statute. The fair value of the Town's investment in this pool is reported in the accompanying financial statements at amounts based upon the Town's pro-rata share of the fair value provided by LAIF for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which is recorded on an amortized cost basis.

Disclosure Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the Town's interest rate risk is mitigated is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Information about the sensitivity of the fair values of the Town's investments (including investments held by bond trustee) to market rate fluctuations is provided by the following table that shows the distribution of the Town's investments by maturity as of June 30, 2021:

NOTE 3: CASH AND INVESTMENTS (CONTINUED)

Investments with Fair Values Highly Sensitive to Interest Rate Fluctuations

The Town had no investments (including investments held by bond trustees) that were highly sensitive to interest rate fluctuations as of June 30, 2021.

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The investments in money market funds, U.S. Government agency securities, corporate notes, municipal issues, and foreign issues were rated N/A to Aaa by Moody's Investors Services and N/A to AAA by Standard & Poor's. The investment in money market funds held by fiscal agents was rated Aaa by Moody's Investors Services and AAAM by Standard & Poor's. The investment in LAIF is not rated.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the Town's investment in a single issuer of securities. The Town complies with the limitations on the amount that can be invested in any one issuer as stipulated by the California Government Code. Investments in any one issuer (other than U.S. Treasury securities and external investment pools) at June 30, 2021, that represent 5% or more of total Town investments are as follows:

<u>Issuers</u>	<u>Investment Type</u>	<u>Amount</u>
Federal Farm Credit Banks	U.S. Government agency securities	\$ 17,663,180
Federal Home Loan Mortgage Corporation MTN	U.S. Government agency securities	18,561,803

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g. broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code does not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the government unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure Town's deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits. As of June 30, 2021, the carrying amount of the Town's deposits was \$3,485,501 and bank balances were \$8,632,636 of which \$250,000 was insured by FDIC coverage limits.

NOTE 4: LOANS RECEIVABLE

Housing Rehabilitation and Affordable Housing Loans

The Town engages in programs designed to encourage construction or improvement in low-to-moderate income housing or other projects. Under these programs, grants or loans are provided under favorable terms to homeowners or developers who agree to spend these funds in accordance with the Town's terms. The balance of the loans receivable arising from these programs at June 30, 2021 was \$9,261,049, which included loans to homeowners totaling \$3,336,628, and loans to the developer (Paradise Community Village) totaling \$5,924,421. As of June 30, 2021 loans receivable balances of \$7,400,262 and \$1,860,787 are recorded in the Town's Home Grant and nonmajor governmental funds, respectively. On a modified accrual basis, these amounts are not available to pay for current period expenditures and are offset by deferred inflows of resources for the full amount as of June 30, 2021.

B. Bonds Payable

On April 1, 2007, the Town pursuant to an Agreement with the California Statewide Communities Development Authority issued \$10,918,154 of Pension Obligation Bonds. The aggregate total amount of the bonds for all agencies was \$87,475,699 which includes \$65,140,000 of Series A-1 current interest and \$22,335,699 of Series A-2 capital appreciation bonds. The Town only participated in the Series A-2 bonds. The issuance of the bonds provided monies to meet the Town's obligation to pay the Town's unfunded accrued actuarial liability (UAAL) and employer contribution amount to the California Public Employees Retirement System (PERS). The Town's obligation includes among others, the requirement to amortize the unfunded accrued liability over a multi-year period. On April 1, 2007, the Town contributed \$10,635,313 of the bond proceeds to PERS to fund a portion of the unfunded liability and the employer contribution amount for the Miscellaneous and Safety Plans that provides retirement benefits to the Town's employees and public safety officers. The Town paid cost of issuance fees of \$282,841.

Interest on Series A-2 capital appreciation bonds is payable on June 1 and December 1. The rate of interest varies from 5.160% to 5.694% per annum. Principal is payable in annual installments ranging from \$238,761 to \$648,234 commencing on June 1, 2010 and ending on June 1, 2031. The balance outstanding as of June 30, 2021 was \$4,035,449. The accreted interest on the capital appreciation bonds balance as of June 30, 2021 was \$4,896,714.

NOTE 8: TOWN EMPLOYEES' RETIREMENT PLAN

A. General Information about the Pensions Plans

Plan Description

All qualified permanent and probationary employees are eligible to participate in the Public Agency Cost-Sharing Multiple-Employer Defined Benefit Pension Plan (Plan) administered by the California Public Employees' Retirement System (CalPERS.) The Plan consists of individual rate plans (benefit tiers) within a safety risk pool (police and fire) and a miscellaneous risk pool (all other). Plan assets may be used to pay benefits for any employer rate plan of the safety and miscellaneous pools. Accordingly, rate plans within the safety or miscellaneous pools are not separate plans under GASB Statement No. 68. Individual employers may sponsor more than one rate plan in the miscellaneous or safety risk pools. The Town sponsors six rate plans (three miscellaneous and three safety). Benefit provisions under the Plan are established by State statute and Town resolution. CalPERS issues publicly available reports that include a full description of the pension plan regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website.

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for each plan are applied as specified by the Public Employee's Retirement Law.

The rate plan's provisions and benefits in effect at June 30, 2021, are summarized as follows:

	Miscellaneous			Safety		
	Tier I	Tier II	PEPRA	Tier I	Tier II	PEPRA
Benefit Formula	2.5% @ 55	2% @ 60	2% @ 62	3% @ 50	3% @ 55	2.7% @ 57
Benefit Vesting Schedule	5 years service	5 years service	5 years service	5 years service	5 years service	5 years service
Benefit Payments	Monthly	Monthly	Monthly	Monthly	Monthly	Monthly
Retirement Age	55	60	62	50	55	57
Monthly Benefits, as a % of Eligible Compensation	2.5%	2.0%	2.0%	3.0%	3.0%	2.7%
Required Employee Contribution Rates	7.000%	7.000%	6.750%	9.000%	9.000%	12.000%
Required Employer Contribution Rates*	41.516%	10.051%	8.521%	284.876%	21.232%	13.292%

* The employer contribution rate is the sum of the plans' employer normal cost rate plus the employer unfunded accrued liability.

Contributions

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for the Plan are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The Town is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. The Town's contributions to the Plan for year ending June 30, 2021 were \$2,261,174.

NOTE 8: TOWN EMPLOYEES' RETIREMENT PLAN (CONTINUED)

B. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions

As of June 30, 2021, the Town reported a net pension liability for its proportionate share of the net pension liability of the Plan of \$25,381,614.

The Town's net pension liability for the Plan is measured as the proportionate share of the net pension liability. The net pension liability of the Plan is measured as of June 30, 2020, and the total pension liability for the Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2019 rolled forward to June 30, 2020 using standard update procedures. The Town's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. The Town's proportionate share of the net pension liability for the Plan as of June 30, 2019 and 2020 (measurement periods) was as follows:

Proportion - June 30, 2019	0.22936 %
Proportion - June 30, 2020	<u>0.23328 %</u>
Change - Increase (Decrease)	0.00392 %

For the year ended June 30, 2021, the Town recognized pension expense of \$3,194,675. At June 30, 2021, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension contributions subsequent to the measurement date	\$ 2,261,174	\$ -
Difference between actual contributions made by employer and the employer's proportionate share of the risk pool's total contribution	-	1,261,761
Differences between actual and expected experience	1,792,524	-
Changes in assumptions	-	110,222
Adjustment due to differences in proportions	418,223	-
Net differences between projected and actual earnings on plan investments	<u>605,497</u>	<u>-</u>
 Total	 <u>\$ 5,077,418</u>	 <u>\$ 1,371,983</u>

\$2,261,174 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

For the Fiscal Year Ended June 30,	Net Deferred Outflows (Inflows) of Resources
2022	\$ 51,184
2023	\$ 590,932
2024	\$ 503,056

Actuarial Assumptions

The total pension liabilities in the June 30, 2019 actuarial valuations were determined using the following actuarial assumptions:

	<u>Miscellaneous & Safety Plans</u>
Valuation Date	June 30, 2019
Measurement Date	June 30, 2020
Actuarial Cost Method	Entry-Age Normal Cost Method
Actuarial Assumptions:	
Discount Rate	7.15%
Inflation	2.50%
Salary Increases	Varies by Entry Age and Service
Investment Rate of Return	7.15% net of pension plan investment expenses; includes inflation
Mortality (1)	Derived using CalPERS membership data for all funds
Post Retirement Benefit Increase	Contract COLA up to 2.50% until purchasing power protection allowance floor on purchasing power applies, 2.50% thereafter

(1) The mortality table used was developed based on CalPERS' specific data. The table includes 15 years of mortality improvements using Society of Actuaries 90 percent Scale MP 2016. For more details on this table, please refer to the April 2017 experience study report (based on CalPERS demographic data from 1997 to 2015) available on CalPERS website.

The underlying mortality assumptions and all other actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the fiscal years 1997 to 2015, including updates to salary increase, mortality and retirement rates. The Experience Study report can be obtained at CalPERS' website under Forms and Publications.

Changes in Assumptions

For the measurement period June 30, 2020, there were no changes in assumptions.

Discount Rate

The discount rate used to measure the total pension liability was 7.15%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Long-term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

TOWN OF PARADISE
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2021

NOTE 8: TOWN EMPLOYEES' RETIREMENT PLAN (CONTINUED)

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all of the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

The table below reflects long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation.

<u>Asset Class</u>	<u>Assumed Asset Allocation</u>	<u>Real Return Years 1-10 (a)</u>	<u>Real Return Years 11+ (b)</u>
Global Equity	50.0%	4.80%	5.98%
Fixed Income	28.0%	1.00%	2.62%
Inflation Asset	0.0%	0.77%	1.81%
Private Equity	8.0%	6.30%	7.23%
Real Estate	13.0%	3.75%	4.93%
Liquidity	1.0%	0.00%	(0.92%)

- (a) An expected inflation of 2.00% used for this period
(b) An expected inflation of 2.92% used for this period

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the Town's proportionate share of the net pension liability for the Plan, as of the measurement date, calculated using the discount rate for the Plan, as well as what the Town's proportionate share of net pension liability would be if it were calculated using a discount rate that is one-percentage point lower or one-percentage point higher than the current rate:

<u></u>	<u>Discount Rate -1%</u> <u>(6.15%)</u>	<u>Current Discount Rate</u> <u>(7.15%)</u>	<u>Discount Rate +1%</u> <u>(8.15%)</u>

NOTE 9: OTHER POST EMPLOYMENT BENEFITS (OPEB)

Description of the Plan

The post-employment benefit plan is a single-employer defined healthcare plan administered by the Town. The Town provides postretirement medical benefits, as provided for in various collective bargaining agreements for retirees that meet certain criteria. Upon enrollment in the PERS medical program, health plans for employees retiring after enrollment shall be in accordance with PERS medical program regulations. Employees of the Town, who immediately upon termination, retire under the PERS retirement plan, and remain in the Town's medical plan, shall have a Town paid contribution towards the medical plan premium not to exceed the Town contribution to an active employee/employee plus spouse/employee plus 2 persons rate as prescribed in Town Resolution and PERS Health Plan Regulations.

The Town of Paradise participates in the Self-Insured Schools of California ("SISC") Trust (the "Plan") to pre-fund Other Post-employment Benefits (OPEB) liabilities reported in accordance with the Governmental Accounting Standards Board (GASB), and as specified in the Town policies and/or bargaining agreements. The SISC has made the program available to the Town and its eligible employees a Trust Fund known as the SISC Trust. The Trust Fund is intended to be a tax-exempt governmental trust established under Internal Revenue Section 115 and an irrevocable trust under applicable law of the State of California.

Employees Covered

As of the June 30, 2019 actuarial valuation, the following current and former employees were covered by the benefit terms under the Health Plan:

Active employees	54
Inactive employees, spouses, or beneficiaries currently receiving benefit payments	<u>81</u>
Total	<u><u>135</u></u>

Contributions

The Town funds the plan on a pay-as-you-go basis. For the year ended June 30, 2021, the Town paid \$676,317 on behalf of retirees, and did not contribute to the trust.

NOTE 9: OTHER POST EMPLOYMENT BENEFITS (CONTINUED)

Net OPEB Liability

The Town's net OPEB liability ("NOL") was measured as of June 30, 2019 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation dated June 30, 2019 based on the following actuarial methods and assumptions:

Valuation Date	June 30, 2019
Funding Method	Entry Age Normal Cost, level percent pay
Asset Valuation Method	Market value of assets
Long Term Return on Assets	6.50%
Discount Rates	6.50%
Participates Valued	Only current active employees and retired participants and covered dependents are valued. No future entrants are considered in this valuation. Employees with no current medical coverage are assumed to elect PERS Choice upon retirement, with no dependents.
Service Retirement Rates	Retirement rates for non-safety employees are taken from the 2014 CalPERS OPEB Assumptions Model for "Public Agency Miscellaneous 2.0% at 55" For police employees, retirement rates are taken from the CalPERS "Police with 3.0% at 50" table.
Benefit Cap Increases	Benefit caps for all employees are assumed to remain unchanged in all future years.
General Inflation Rate	2.75% per annum
Mortality Improvement	2017 CalPERS OPEB assumptions Model.
Healthcare Trend Rate	CalPERS medical premiums assumed to increase 5% each year

Discount Rate

The discount rate used to measure the total OPEB liability was 6.50%. The discount rate is set equal to the expected long-term rate of return on the invested assets. The cash flows of the OPEB plan were projected to future years, assuming that the Town will contribute an amount at least equal to retirees' benefits plus \$50,000 per year, until the Net OPEB Liability is expected to be \$0, and then small amounts thereafter to keep the NOL at \$0. Under that projection, the plan assets are projected to be adequate to pay all benefits to retirees in all future years, so the discount rate has been set equal to the long-term expected rate of return on investments.

Changes in the Net OPEB Liability

The changes in the net OPEB liability for the plan are as follows:

	Total OPEB Liability (a)	Plan Fiduciary Net Position (b)	Net OPEB Liability/(Asset) (c) = (a) - (b)
Balance - beginning of year	\$ 10,204,008	\$ 219,409	\$ 9,984,599
Service cost	107,237	-	107,237

Recognition of Deferred Outflows and Deferred Inflows of Resources

Gains and losses related to changes in total OPEB liability and fiduciary net position are recognized in OPEB expense systematically over time.

Amounts first recognized in OPEB expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to OPEB and are to be recognized in future OPEB expense.

The recognition period differs depending on the source of the gain or loss:

Net difference between projected and actual earnings on OPEB plan investments	5 year straight line recognition
All other amounts	Straight line recognition over the expected average remaining service lifetime (EARSL) of all members that are provided with benefits, determined as of the beginning of the Measurement Period. In determining the EARSL, all active, retired and inactive (vested) members are counted, with the latter two groups having 0 remaining service year.

NOTE 10: FUND BALANCES

GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balances more transparent.

The Town of Paradise has established the following fund balance procedures:

Non-Spendable: Amounts that cannot be spent because they are either (a) not in spendable form (not expected to be converted to cash) or (b) legally or contractually required to be maintained intact. The Town has classified prepaid items and advances as nonspendable since these items are not expected to be converted to cash or are not expected to be converted to cash within the next year.

Restricted: Amounts subject to externally enforceable legal restrictions or constrained for a specific purpose by external parties, constitutional provision, or enabling legislation. This fund balance type is essentially the same definition as restricted net position under GASB Statement No. 34.

Committed: The Town Council, as the Town's highest level of decision-making authority, may commit fund balance for specific purposes pursuant to constraints imposed by formal action taken, such as an ordinance or resolution. These committed amounts cannot be used for any other purpose unless the Town Council removes or changes the specified use through the same type of formal action taken to establish the commitment. Town Council action to commit fund balance needs to occur within the fiscal reporting period; however the amount can be determined subsequently.

TOWN OF PARADISE
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2021

NOTE 10: FUND BALANCES (CONTINUED)

Assigned: Amounts that are constrained by the Town's intent to be used for specific purposes, but are neither restricted nor committed, should be reported as assigned fund balance. The policy hereby delegates the authority to assign amounts to be used for specific purposes to the Town Manager and the Finance Director for the purpose of reporting these amounts in the annual financial statements.

Unassigned: Residual amounts in the general fund, not classified as non-spendable, restricted, committed, or assigned. For other governmental fund types, unassigned is only used when a deficit or negative fund balance occurs.

The accounting policies of the Town consider restricted fund balance to have been spent first when an expenditure is incurred for the purposes for which both restricted and unrestricted fund balance is available. Similarly, when an expenditure is incurred for purposes for which amounts in any of the unrestricted classifications of fund balance could be used, the Town considers committed amounts to be reduced first, followed by assigned amounts, and unassigned amounts.

As of June 30, 2021, fund balances consisted of the following:

NOTE 11: REVENUE LIMITATIONS IMPOSED BY CALIFORNIA PROPOSITION 218

Proposition 218, which was approved by the voters in November 1996, will regulate the Town's ability to impose, increase, and extend taxes, assessments, and fees. Any new, increased, or extended taxes, assessments, and fees subject to the provisions of Proposition 218, requires voter approval before they can be implemented. Additionally, Proposition 218 provides that these taxes, assessments, and fees are subject to the voter initiative process and may be rescinded in the future years by the voters.

NOTE 12: CONTINGENCIES AND COMMITMENTS

The Town is subject to litigation arising in the normal course of business. In the opinion of management and legal counsel there is no pending litigation which is likely to have a material adverse effect on the financial position of the Town.

Grant Awards

The Town participates in certain Federal and State assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. Any liability for reimbursement which may arise as the result of these audits is not believed to be material.

Public Health Emergency

The World Health Organization declared the worldwide coronavirus (COVID-19) outbreak a public health emergency on January 30, 2020 and officially declared it as a pandemic as of March 11, 2020. Management has performed an evaluation of certain financial statement line items such as investments, accounts receivable, accounts payable, and accrued expenses to determine whether valuation or impairment adjustments should be made. Management has determined that the amounts reported on the financial statements are properly valued as of June 30, 2021. However, since the duration and full effects of the COVID-19 outbreak are yet unknown there could be future negative impacts to the financial condition of the Town.

NOTE 13: RISK MANAGEMENT

The Town manages risk of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters by participating in the public entity risk pool described below and by retaining certain risks.

The Town is a member of the Northern California Cities Self Insurance Fund (NCCSIF) along with eighteen other northern California cities. The NCCSIF is a joint powers authority (JPA) organized in accordance with Article 1, Chapter 5, Division 7, Title 1 of the California Government Fund Programs. The purpose is to create a common pool of funds to be used to meet obligations of the parties to provide workers' compensation benefits for their employees and to provide excess liability insurance. The NCCSIF provides claims processing, administrative services, risk management services, and actuarial studies. A member from each city governs the NCCSIF. The Town council members do not have significant oversight responsibility, since they evenly share all factors of responsibility with the other cities. The Town does not retain the risk of loss. However, ultimate liability for payment of claims and insurance premiums resides with member cities.

NCCSIF is empowered to make supplemental assessments as needed to eliminate deficit positions of member cities/town. If the JPA becomes insolvent, the Town is responsible only to the extent of any deficiency in its equity balance. Upon termination of the JPA agreement, all property of NCCSIF will vest in the respective parties which theretofore transferred, conveyed or leased said property to NCCSIF. Any surplus of funds will be returned to the parties in proportion to actual balances of each equity.

TOWN OF PARADISE
 NOTES TO BASIC FINANCIAL STATEMENTS
 JUNE 30, 2021

NOTE 13: RISK MANAGEMENT (CONTINUED)

The NCCSIF establishes claims liabilities based on estimates of the ultimate cost of claims (including future claims settlement expenses) that have been reported but not settled, plus estimates of claims that have been incurred but not recorded. Because actual claims costs depend on various factors, the claims liabilities are recomputed periodically using a variety of actuarial and statistical techniques to produce current estimates that reflect recent settlements, claim frequency, and other economic and social factors. A provision of inflation is implicit in the calculation of estimated future claims costs. Adjustments to claims liabilities are charged or credited to expense in the periods in which they are made.

The Town's insurance coverage for general liability includes claims up to \$40,000,000 and workers' compensation claims up to the statutory limit and up to \$5,000,000 for employer's liability. The Town has a self insured retention or deductible of \$50,000 per claim for general liability claims. The Town's self-insured retention is \$100,000 for worker's compensation claims. Once the Town's self-insured retention for claims is met, NCCSIF becomes responsible for payment of all claims up to the limit.

The participants as of June 30, 2021 were as follows:

Anderson	Auburn	Colusa	Corning	Dixon	Folsom	Galt
Gridley	Ione	Jackson	Lincoln	Marysville	Oroville	Paradise
Placerville	Red Bluff	Rio Vista	Rocklin	Willows	Yuba City	

Financial statements for NCCSIF may be obtained from Alliant Insurances, 2180 Harvard Street, Suite 460, Sacramento, California 95815.

NOTE 14: SUCCESSOR AGENCY TRUST FOR ASSETS OF FORMER REDEVELOPMENT AGENCY

On December 29, 2011, the California Supreme Court upheld Assembly Bill 1X 26 ("the Bill") that provides for the dissolution of all redevelopment agencies in the State of California. This action impacted the reporting entity of the Town that previously had reported a redevelopment agency within the reporting entity of the Town as a blended component unit. The activity of the Successor Agency Trust is now recorded in a private purpose trust fund.

Management believes, in consultation with legal counsel, that the obligations of the former redevelopment agency due to the Town are valid enforceable obligations payable by the successor agency trust under the requirements of the Bill. The Town's position on this issue is not a position of settled law and there is considerable legal uncertainty regarding this issue. It is reasonably possible that a legal determination may be made at a later date by an appropriate judicial authority that would resolve this issue unfavorably to the Town.

Changes in Long-term Liabilities

Long-term liability activity for the fiscal year ended June 30, 2021 was as follows:

Bonds payable consisted of the following as of June 30, 2021:

2009 Tax Allocation Refunding Bonds

On October 21, 2009, the Town issued the 2009 Tax Allocation Refunding Bonds in the amount of \$4,480,000. The refunding bond was used to refund the entire outstanding 2003 Tax Allocation Notes and the 2005 Tax Allocation Notes. The Refunding Bonds have a stated interest rate from 4.80% to 6.00% and mature on June 1, 2043. The Refunding Bonds are subject to redemption prior to their stated maturity, at the option of the Town, as a whole or in part pro rata among maturities and by lot within a maturity, on any date on or after June 1, 2019 from funds derived by the Town from any sources at a redemption price equal to 100% of the principal amount thereof, together with accrued interest thereon to the redemption date, without premium. The original issue bond discount on these bonds is being amortized over the life of the bonds and is included with long-term debt on the balance sheet.

On February 1, 2012, the total principal balance of \$4,377,893, which was net of the \$102,107 of unamortized original issue bond discount, was transferred from the Town. The principal balance outstanding, as of June 30, 2021 was \$4,070,000.

The future principal and interest payments for the bonds payable as of June 30, 2021 were as follows:

NOTE 15: EXTRAORDINARY ITEMS - CAMP FIRE AND PG&E SETTLEMENT

On November 8, 2018, the Camp Fire, the most destructive wildfire in California State history, swept through the Town of Paradise and destroyed roughly 90 percent of the Town's residences and businesses. This has resulted in material effects to the Town's future revenues and finances; however, the Town is well supported and on the path to recovery. Federal, State and local partners will assist with long term recovery. Insurance and the State of California, will provide short-term lost revenue backfills. The following account balances and transactions were recorded as a result of the Camp Fire.

In fiscal years 2020 and 2019, the State of California advanced \$5 million and \$3.5 million, respectively, towards a FEMA public assistance claim. In fiscal year 2020 the Town has expended and recognized \$1,723,104 of the grant revenue. The remaining balance of the grant, \$3,325,831 is recorded as unearned revenue in the Camp Fire fund.

NOTE 16: SUBSEQUENT EVENTS

The Town has evaluated subsequent events through the date of this report, which is July 26, 2022, the date on which the financial statements were available for issuance. Management has determined no subsequent events requiring disclosure have occurred.

In 2020 and 2019, there were no changes. In 2018, the demographic assumptions and inflation rate were changed in accordance with the CalPERS Experience Study and Review of Actuarial Assumptions December 2017. In 2017, the accounting discount rate was reduced from 7.65 percent to 7.15 percent. In 2016, there were no changes. In 2015, amounts reported reflect an adjustment of the discount rate from 7.5 percent (net of administrative expense) to 7.65 percent (without a reduction for pension plan administrative expense). In 2014, amounts reported were based on the 7.5 percent discount rate.

*Schedule is intended to show information for ten years. Fiscal year 2015 was the first year of implementation, therefore only seven years are shown. Additional years' information will be displayed as it becomes available.
