Installation (Partial) Requirements that are occasionally overlooked:

- 1) Septic tanks shall be installed on a level, stable base that will not settle. A minimum eight (8) inch base layer of pea gravel shall be required, Onsite Treatment of Wastewater, Section 4.1.B.a.
- 2) Septic tanks are required to have a minimum 12 inches of spacing between all sides of the tank and the excavation hole on all four sides. Onsite Treatment of Wastewater, Section 5.1.B all septic tanks must be water tight.
- 3) As-Built required at time of final inspection per Onsite Treatment of Wastewater. The installer will provide to the Town a detailed, as-built plan (drawn to scale) of the installation per Onsite Treatment of Wastewater, Section 1.3.B.

All Town of Paradise Manual for the Onsite Treatment of Wastewater and Paradise Municipal codes listed above are subject to a re-inspection fee.

Thank you,

Bob Larson  
Onsite Sanitary Official  
Town of Paradise
